5:30pm ~ Grant Announcement/Refreshments

As part of the USDA Community Food Projects Competitive Grants Program, USDA's National Institute for Food and Agriculture, awarded 15 grants throughout the nation. Due to Camden's extreme need, and successful progress in community gardening/urban agriculture, the CCGC was chosen by the USDA to further expand the CCGC's Community Gardening Program. Through this initiative, "CAMDEN GROWS", the CCGC and partners will train, educate and support Camden gardeners to grow a surplus of food, for the people of Camden, NJ. The gardeners will also be trained as entrepreneurs in order to sell their crops for a profit. Members and guests can enjoy light locally-grown refreshments and will be greeted with the exciting announcement. Gardeners will also have the opportunity to meet Camden City Elected Officials to discuss food issues and the plans for the new grant.
