Air Plant Care and Diffuser Option:

Air Plant Care: Every one to two weeks, soak your air plant in room temperature tap water (or rain/pond water if you can find it) for 5-10 minutes. After soaking gently shake excess water from your plant. Turn it upside down and place it on a towel in a bright space to fully dry.

Diffuser Option: Place 1-2 drops of your favorite essential oil on the ribbon of your ornament for a fresh scent. Repeat as necessary.
