

Happy Home Kit

We choose Thieves Household Cleaner because it is a safe, natural and effective option, instead of toxic chemical filled cleaners. Use your spray bottle on counter tops, in bathroom, on windows, and more, and enjoy the smell of cinnamon, clove, lemon, rosemary and eucalyptus oils!

Dryer sheets are full of toxic chemicals that are not safe to breathe in or be rubbing on our skin all day from our clothes. We love to use wool dryer balls with some Young Living Essential Oils. Drop some Citrus Fresh Oil on the dryer ball and pop in the dryer! Enjoy fresh smelling clothes, all from plants!

We love diffusing our essential oils this time of year, especially our Christmas Spirit blend! Drop some on your ornament and hang on your tree or in your car to replace toxic scents.

Check out the back of this card to get more information on how you can ditch toxins in your home and switch to a natural lifestyle!
